[8] The complainant appears to seek that the legal entity "RICHARD JOHN BERESFORD" as described in his birth certificate have its status changed from "living" to "deceased", because:

> The self-evident truth of the matter is that the extra feto embryonic material and placenta also born slightly later on that day also died on that day, it died by abortion and an act of violence with a weapon, died prematurely as an act of, maybe unwittingly by the assaulter, of intentional premeditated interference in the divine natural order of life, depriving me of my due remaining sustenance. This is literal understanding of the social contract

***Simon v Chief Executive of the Department of Corrections* [2022] NZCA 222**

STUFF

[4] Mr Simon argued that there is a distinction between himself, as a "natural person" and the "legal person/corpus body" named in the warrant. From Mr Simon's assertions that he could not be compelled to enter into any contract, we infer that he regards the authority of the court as a matter of consent by him and that since he does consent to be bound by the authority of the Court, the warrant is not a valid basis on which to detain him.

Why write *Outlawed*?

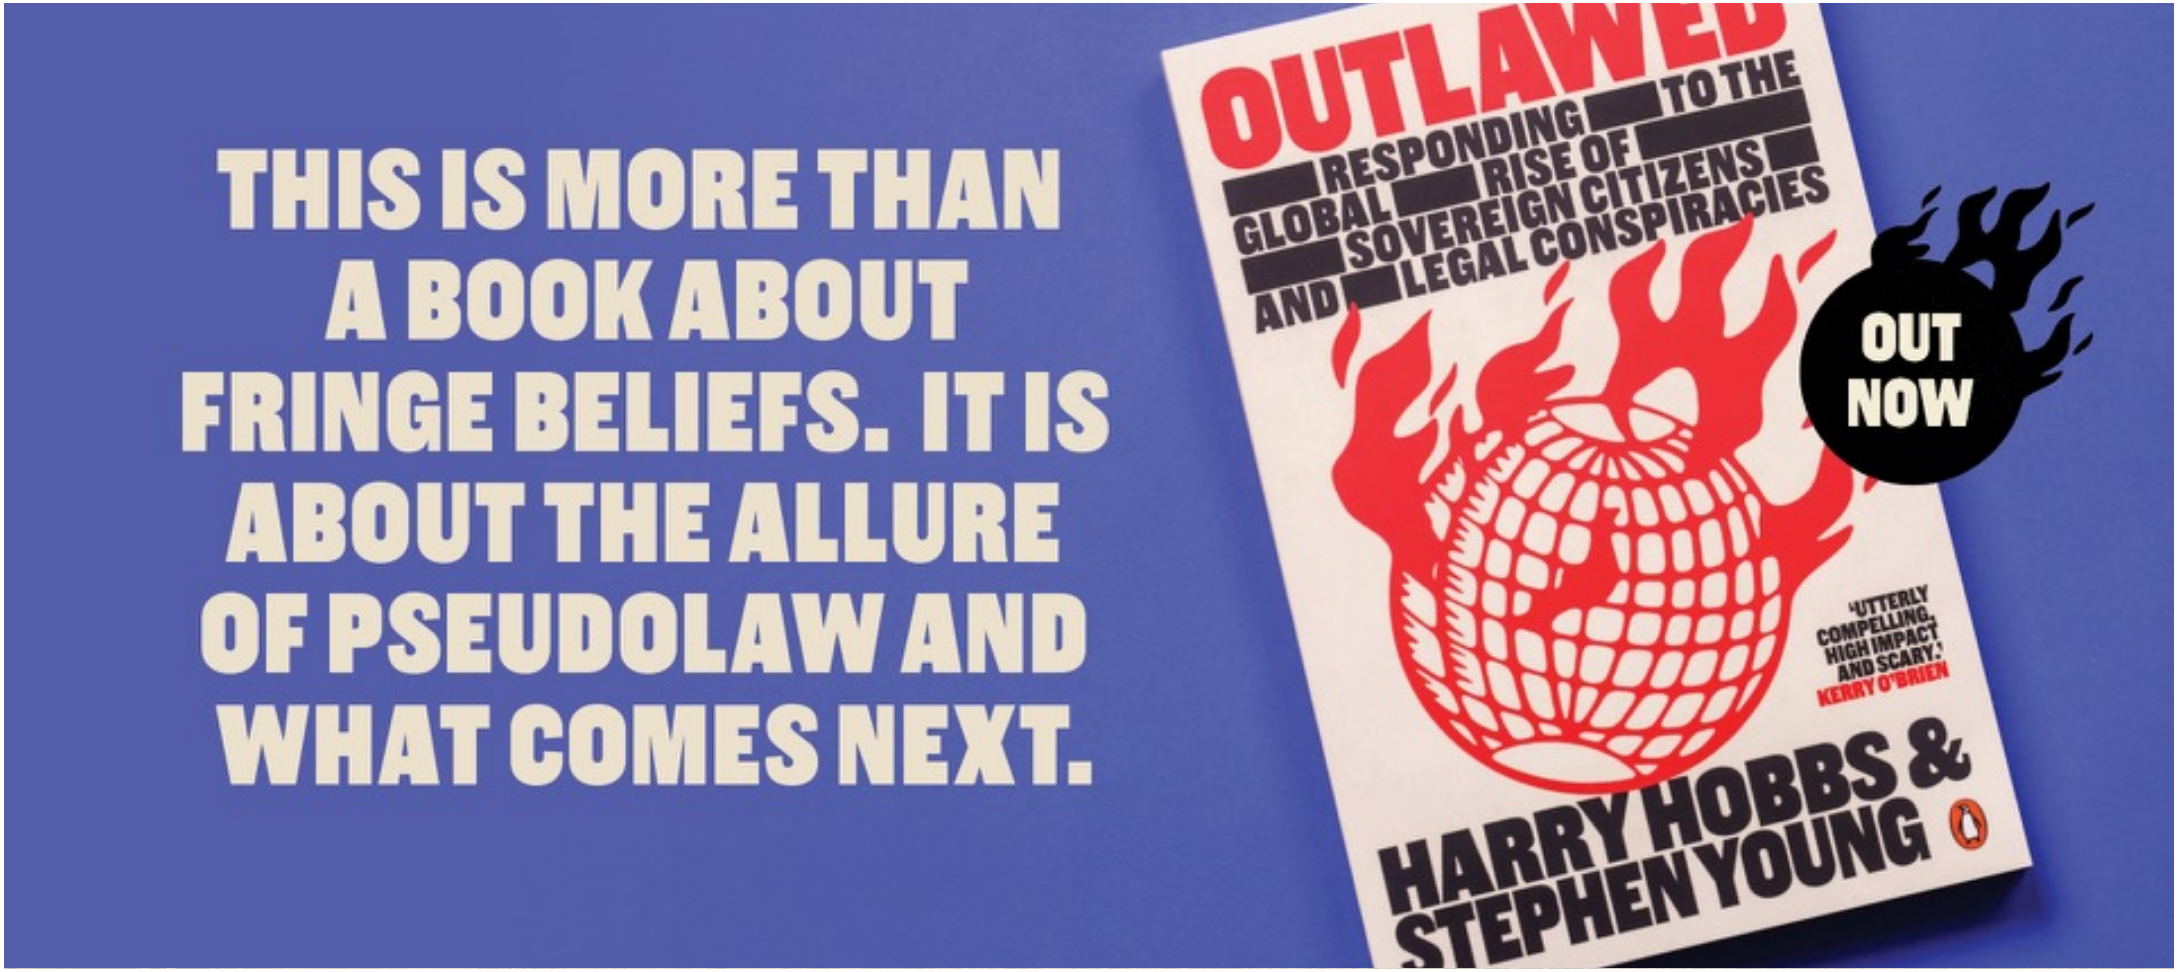
They become outlaws.

To them, state actors are outlaws.

We are deadlocked.

But we’re not just at loggerheads.

“We have tried to entertain and educate, but without engaging in mockery or copaganda.”



THIS IS MORE THAN A BOOK ABOUT FRINGE BELIEFS. IT IS ABOUT THE ALLURE OF PSEUDOLAW AND WHAT COMES NEXT.
